

## PAX Tools for Communities

With schools across the country closed in response to the COVID-19 pandemic, parents and caregivers are in need of resources for use in homes while attending to their children/youth in these uncertain times. PAXis Innovation Canada is pleased to announce **PAX Tools™**. Similar to the PAX kernels used in classrooms, they are tailored for the home and community environments. **PAX Tools™** gives parents and caregivers strategies that improve cooperation and emotional and behavioural self-regulation, while having fun. As a result, adults and children/youth experience less stress and enjoy more time together.

In addition to in-person training, PAXis Innovation Canada now offers live, virtual **PAX Tools™** Training Certification for community educators interested in the opportunity to provide this resource to parents, caregivers and youth workers in their community. Once a community educator becomes a certified **PAX Tools™** trainer, they have the expertise and flexibility to deliver **PAX Tools™** workshops that best meet the needs of those in their community. Although **PAX Tools™** sessions are ideally done in-person, due to current social distancing restrictions, certified trainers have the option of delivering **PAX Tools™** in a live, virtual on-line format.

### Who Should Attend PAX Tools Community Educator Training?

Ideal candidates serve in one of the following areas:

- Parent Educators
- Health Educators
- Prevention Educators
- Extension Educators
- Social Service Providers
- Volunteer Coordinators
- Foster Care and Respite Providers
- Faith-Based Youth Workers/Volunteers
- Mental Health / Substance Abuse Providers

The cost of the PAX Tools Training Certification course is approximately \$1,000.00 per person. Once trained, the certified PAX Tools trainer provides workshops, PAX Tools kits (available for bulk purchase in packages of 50) and access to the PAX Tools app! at no cost to all participants. PAXis Innovation Canada looks forward to share with you more information about **PAX Tools™**. Please contact Tim Heidebrecht at:
